

BOPLA

A Phoenix Mecano Company

Data sheet

Transparent foil heaters

Technical data

- Up to 3000 W/m² and 85°C
- Transparency up to 93%
- Functional for camera, lidar and radar
- Specific resistance of 1 Ohm/square
- Film can be finished by screen printing
- Flexible and easy to integrate
- Can be structured as required
- Size 250x430mm, special size on request
- Small quantities already economical
- Wide range of applications

Benefits at a glance

More uptime
50% of the time for defrosting

Energy saving
30% of Energy required

Cost savings
Smart Heating

Maintenance-free
No moving parts

Rapid heating
Metal Mesh Technology
